New Douglas Contour™ SPS-30 Shrink Packer cost-effectively maximizes simplicity and efficiency.

Alexandria, Minnesota – August 26, 2005

The new Douglas Contour™ SPS-30 Shrink Packer cost-effectively maximizes simplicity and efficiency with new patent-pending technologies for tray, pad, u-board, and film only applications.

The SPS-30 features a variety of infeeds, including the new Smartrak™ Steady Stream Infeed to ensure continuous product flow, easy-to-understand pin metering for simple operation, and servo drives for low maintenance and parts costs and repeatable changeovers. The flexible patent-pending servo driven wrapping wand maximizes film control resulting in accurate film placement. The easily accessible film cutter consistently feeds and cuts film for maximum performance. The SPS-30's simple inline design provides convenient operator and maintenance access and efficiently uses floor space. Speeds are to 30 cycles per minute.
