### Douglas exhibits the NEW Axiom™ Servo Case Packer and Contour™ Series Shrink-Wrapper at Pack Expo Las Vegas

**Alexandria, Minnesota – June 17, 2005**

Douglas will exhibit the NEW Axiom™ Servo Case Packer and Contour™ Series S-50 Shrink-Wrapper at the upcoming Pack Expo Las Vegas tradeshow in Las Vegas, Nevada, September 26 - 28.

The Axiom™ Servo Case Packer incorporates next generation electronic motion control technology, dramatically enhancing changeover repeatability, machine flexibility, and speed. The Axiom's™ scalable design simplifies the addition of future products due to ever-changing product life cycles. The innovative design also incorporates durable stainless steel frames and a compact footprint that saves 15 to 30 percent in valuable floor space. The Axiom™ Servo Case Packer is capable of speeds up to 45 cases/trays per minute, depending on the application.

The Contour™ Series S-50 features several innovative patent-pending technologies. A flexible servo driven wrapping wand maximizes size range capability, increases film control, and accurately places film. The revolutionary scalable heat tunnel's unprecedented heat and airflow management ensures excellent bull's-eyes and minimum graphic distortion. The Contour™ Series Shrink-Wrapper is capable of speeds up to 50 cycles per minute, depending on the application.

Pack Expo Las Vegas attendees are invited to visit Booth #C-2517 to view the latest technologies.
