New Slipstream™ LS Pinless Metering reduces costs while increasing efficiencies

Alexandria, Minnesota – March 27, 2007

Douglas' new mid-speed Slipstream™ LS Pinless Metering uses electronic motion controls and patented slipsheet technology to reduce costs and increase efficiencies.

The Slipstream™ LS features tool-free changeovers in the metering section and fewer parts for less maintenance and faster changeovers resulting in higher overall operating efficiencies. Patented slipsheet technology eliminates damage to labels and products that can sometimes occur when using traditional pin metering technology, reducing costs. The Slipstream™ LS runs round, square, and bundled products, maximizing flexibility.

Slipstream™ LS pinless metering is used on Douglas product lines including Axiom® Case and Tray Packers and Contour™ Tray Packers, Shrink Packers and Multiwrappers.

For more information, call 320.763.6587 or visit www.douglas-machine.com.

[About Douglas Machine Inc.](#)

Founded in 1964, Douglas Machine Inc. is recognized as a global leader in automated packaging solutions for paperboard, corrugated, and shrink-film. Today the company specializes in the design and manufacture of cartoners, sleeves, case and tray packers, and shrink-wrap systems. Customers from many different markets including food, beverage, personal care, and pharmaceutical, have come to rely on Douglas' automation expertise and value-added services to maximize their throughput. Based in Alexandria, Minnesota, Douglas Machine also has operations in Deerwood, Minnesota.
