Douglas New Metering Technology Expands Machine Capabilities

Alexandria, Minnesota – January 9, 2008

Douglas Machine Inc. recently released new technology for the Slipstream™ pinless metering system. The new technology expanded the Slipstream™ so it can handle cans, bottles, and cartons on one machine by simply changing a snap-on slipsheet, making the machines much more flexible. The size range extends from small pet food cans to large 2-liter bottles and speeds can range from 30 to 105 packages per minute.

Another advantage of the Slipstream™ is that it handles widths of product up to 8 wide 32 packs of soft drink cans. The Slipstream is also perfect for shrink-wrapping multiple streams for film only bundles.

Slipstream™ pinless metering is used on Douglas Contour™ Shrink-Wrap systems and Axiom® Case/Tray Packers to deliver flexible packaging solutions.

All Douglas Machine solutions are backed by our 3-year limited warranty.

For more information, call 320.763.6587 or visit www.douglas-machine.com.

About Douglas Machine Inc.

Founded in 1964, Douglas Machine Inc. is recognized as a global leader in automated packaging solutions for paperboard, corrugated, and shrink-film. Today the company specializes in the design and manufacture of cartoners, sleeves, case and tray packers, and shrink-wrap systems. Customers from many different markets including food, beverage, personal care, and pharmaceutical, have come to rely on Douglas' automation expertise and value-added services to maximize their throughput. Douglas Machine Inc. is based in Alexandria, Minnesota USA.
