Douglas Creates Solution for Single-Serve Snack Trends

ALEXANDRIA, MN. (June 30, 2014) – Douglas delivers a unique single-serve case packaging solution for hummus snack cups. Trends to help control individual portion sizes and a demand for convenient snacks are driving single-serve packaging. Hummus' recent spike in popularity has led to new packaging options that combine individual portions of hummus with pretzels for dipping. Douglas' Axiom® intermittent motion case and tray packer utilizes a dual pick and place loader for high speed product loading of 40 cases per minute, combining ultimate high speed dependability with gentle product handling. The open frame modular design platform, innovative infeed technologies, and simple menu-driven changeovers allow effortless adaptation for evolving and uncertain product life cycles.

About Douglas Machine Inc.

Founded in 1964, Douglas Machine Inc. is recognized as a global leader in automated secondary packaging solutions for paperboard, corrugated, and shrink film. The company specializes in the design and manufacture of cartoners, sleeves, case/tray packers, and shrink-wrap systems. Based in Alexandria, MN, Douglas is an employee-owned company that has installed more than 7,000 machines in 30 countries. For more information, visit www.douglas-machine.com.
