## **Douglas' TriVex® RL Top Loader Helps Customers with FSMA Requirements**

ALEXANDRIA, MN. (July 18, 2014) – The washdown design of Douglas' TriVex RL top load case packer helps customers with FSMA requirements. The TriVex meets customer requirements for loading a wide range of cup sizes and pack complements into cases, trays, and crates. Integrated lane dividing and product flow staging, as well as optional partition inserter capabilities, provide versatility for many markets such as dairy packaging lines. With the latest implementation, the robotic loader handles foil or snap sealed dairy cups, from 4oz. to 42oz., in single or multiple tiers.

### **About Douglas Machine Inc.**

Founded in 1964, Douglas Machine Inc. is recognized as a global leader in automated secondary packaging solutions for paperboard, corrugated, and shrink film. The company specializes in the design and manufacture of cartoners, sleeves, case/tray packers, and shrink-wrap systems. Based in Alexandria, MN, Douglas is an employee-owned company that has installed more than 7,000 machines in 30 countries. For more information, visit [www.douglas-machine.com](http://www.douglas-machine.com).

Email [maryellen.kerber@douglas-machine.com](mailto:maryellen.kerber@douglas-machine.com) for additional information regarding the TriVex top load series.
