# Axiom<sup>®</sup> Multi-Robotic Solution for Retail Ready Displays

ALEXANDRIA, MN. (February 28, 2017) –The Douglas Axiom case packer utilizes M1iA and M2iA Fanuc robots to orient and collate single-serve cups ensuring precise graphic alignment. The cups are then loaded on edge, with graphics upright, into delicate thermal formed trays housed inside a retail ready wrap around case. At 450 cups a minute, this robotic solution increased production and includes a simple changeover and automated robot maintenance log.

### About Douglas Machine Inc.

Founded in 1964, Douglas Machine Inc. is a global leader in automated secondary packaging solutions for paperboard, corrugated and shrink film. The company specializes in the design and manufacture of cartoners, sleevers, case/tray packers, shrink wrap systems and palletizers. Based in Alexandria, MN, Douglas is an employee-owned company that has installed more than 7,000 machines in 30 countries. For more information, visit www.douglas-machine.com.
