### **Douglas' New Robotic Metering Reduces Maintenance and Improves Simplicity**

ALEXANDRIA, MN. (April 24, 2019) - Douglas is pleased to announce a design improvement applying our proven SCARA robot technology to the metering system on Contour™ 60-Series machines. A single robotic arm uses Rockwell controls and replaces linear motors from the previous metering design. Customers are provided with enhanced durability, lower maintenance costs and improved accessibility, simplicity and efficiency.

#### **About Douglas Machine Inc.**

Founded in 1964, Douglas Machine Inc. (Douglas) is a global leader in automated secondary packaging solutions for paperboard, corrugated and shrink film. The company specializes in the design and manufacture of case & tray packers, shrink wrap systems, cartoners, sleeveers, multipackers and palletizers. Based in Alexandria, Minnesota, Douglas is an employee-owned company that has installed more than 11,000 machines in 30 countries.
