Join Douglas for Pack Expo Las Vegas on September 23-25!

ALEXANDRIA, MN (August 21, 2019) – Douglas invites you to booth C-2014 to see four of their cutting edge machines in action! See the enclosed showcase for additional information.

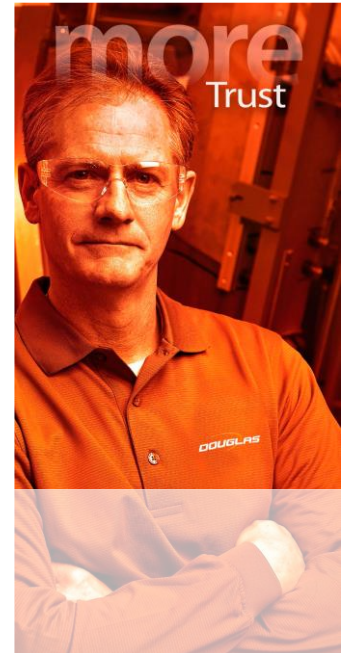

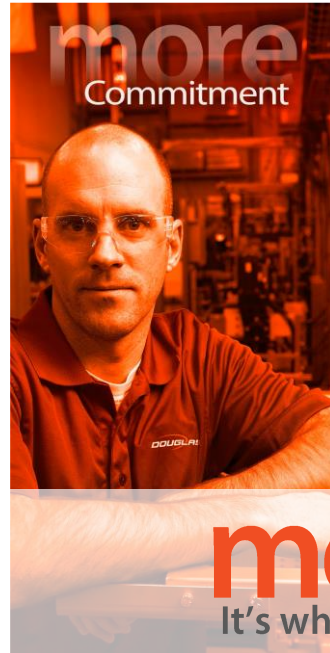

- CpONE™ Intermittent Motion Case Packer: 40% fewer parts. 40% fewer change points. Expect less maintenance and more simplicity, reliability and performance.
- TriVex® SL Case Packer: Versatile and innovative retail ready case packer for pouches and bags.
- Spectrum® Multipacker: Beverage cartoner and variety pack solution that maximizes output and minimizes labor.
- Contour™ M-60 Multiwrapper: New robotic product registration and metering system provides efficiency, accessibility and flexibility. Produces film only shrink bundles in single or multiple lanes for increased throughput.

About Douglas Machine Inc.

Founded in 1964, Douglas Machine Inc. (Douglas) is a global leader in automated secondary packaging solutions for paperboard, corrugated and shrink film. The company specializes in the design and manufacture of case & tray packers, shrink wrap systems, cartoners, sleeves, multipackers and palletizers. Based in Alexandria, Minnesota, Douglas is an employee-owned company that has installed more than 11,000 machines in 30 countries.

Email Douglas Marketing at updates@douglas-machine.com or visit <https://www.douglas-machine.com> for additional information on the company and information contained in this release.

###

more
It's who we are.

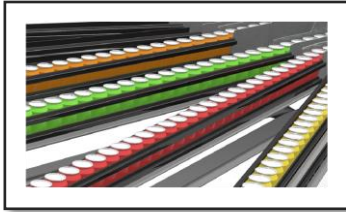

We look forward to visiting with you in Booth C-2014
to discuss how Douglas can do **more** for you!

CpONE™ Case Packer

This Simplifies Everything.

- Step-change improvement in value for wraparound and side-load case packers
- Robotic arms provide performance and simplicity
- 40% fewer parts, more reliability
- 30-50% fewer lubrication points, less maintenance
- 45% fewer change points, more production
- Value through simplicity and performance
 - Simple to own
 - Simple to operate
 - Simple to maintain

Spectrum® Multipacker

Beverage Cartoner and Variety Pack Solutions

- High-speed multipacker for cartoning cans and bottles
- Variety Pack automation allowing producers to capture additional sales
 - Maximize output and minimize labor
 - Automated unloaders receive, unload and deliver up to six flavor lanes to the Spectrum infeed; infeeds offer 4-24 count capability for up to six flavors per multipack
 - Alternative solutions include hand load flavor stations, variety pack reloading into supply trays, variety shrink bundles and variety case packing

TriVex® SL

Versatile. Innovative. Simple.

- Simplest case packer on the market for producing retail ready display cases
- Product infeed, collation and loading in one dual robotic solution
- Load pouches upright with 1 or 2 product facings
- Load bags flat with 2 or 3 per layer

Contour™ M-60 Multiwrapper

Efficient. Reliable. Adaptable.

- New robotic product registration and metering system provides efficiency, accessibility and flexibility
- Film only shrink bundles produced in single lane or multiple lanes for increased throughput
- Reduce packaging costs by eliminating or minimizing corrugated material
- Side mounted film stand assures proper ergonomics and adds convenience for film loading and splicing
