

Learn how our 100% employee-owned company can provide a customer-driven experience for your packaging needs. Partner with Douglas for the experience, reliability and adaptability needed to provide you the ideal solution to meet your application and ROI goals.

Your Next Round of **Reliability** is on Douglas.

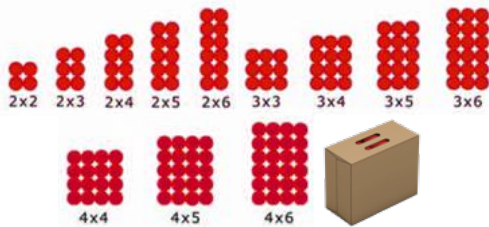

Bringing your finest to their table ... Cartoning, Case Packing and Shrink Wrapping solutions for craft brewers

Cartoning

Vantra™ IM – The craft brewer’s choice for cartoning 300-600 cans/minute! Compact and economical intermittent motion cartoner capable of producing both cartons and trays on a single machine.

Spectrum – The ideal high-speed multipacker for cartoning beverage cans and bottles.

Case Packing

TriVex® RLi – This top loader and sealer offers craft brewers versatility with high speed automation.

Axiom® IM – Case packing up to 40 cases/min with precise product control, capable of packing in wraparound or knockdown style cases and trays, with or without partitions.

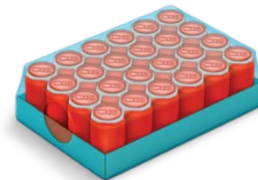

Shrink Wrapping

Shrink Packer Systems - Integrated machines for loose product collating, tray packing and shrink wrapping.

Shrink Wrappers - Standalone shrink wrappers for trays of cans or bottles.
