Sustainable Beverage Packaging Made Simple

Preference for environmentally-friendly packaging is expanding, and paperboard is an increasing alternative to plastics.

With NEXClip applicators, you can make the sustainable switch by applying **recyclable paperboard multipack clips** as a replacement to plastic rings or snap-on handles.

Achieve your green goals without compromising quality, safety, or simplicity.

NEXClip, simply sustainable.

Robotic applicators with Rockwell controls offer low maintenance and easy, tool-less changeovers that maximize uptime

Speed modularity

Single applicators serve moderate speed lines while dual applicators offer higher speeds and/or redundancy

Your choice of material supplier

NEXClip machines are not tied to single-supplier material contracts or blank designs

Applicator portfolio to fit your needs

Create 4, 6, or 8 packs of bottles or cans with NEXClip solutions receiving loose product, preloaded product in trays, or product flow integrated within tray packing equipment

Narrow machine footprint

5-foot wide main machine frame fits within the standard width of tray packer or tray-shrink machine

Uninterrupted production

Safely replenish clip magazines while the machine is running

▼ Product types

Package 12 oz cans and bottles with large or small cap diameters
