

## cost-effective, more eco-friendly, more from your equipment investment.

## How it WORX...

Douglas will conduct a detailed review of the project with your team to determine intent, viability, pricing, ROI, scheduling and more. Once the plan is approved, your machine enters a rigorous multi-faceted protocol:

- Full audit performed to identify and replace worn parts
- Upgrade obsolete items
- Install upgrades/enhancements
- Add new products/pack patterns
- Replace guarding
- Machine deep clean (dry ice)
- Review by Douglas experts
- Test machine with your team to verify full functionality
- Risk assessment
- Full review of programming by electrical engineers to ensure orderly function
- Detailed documentation provided including updated manuals, spare parts list and assembly drawings

REBUILD, REUSE, RENEW. REWCORX.

## Why REWORX?

- Reduce cost
- Eliminates new machine investment by providing less costly alternatives including repair, repurpose or rebuild
- Expert assessment, collaboration and communication
  - Experts review, test, and verify all sections of the machine
  - Collaborate with your team to weigh ROI of rebuild vs. new replacement
  - Includes comprehensive price package covering all facets of the rebuild process
- Continue ROI from initial investment
  - Repairing and continuing machine production vs. discarding or letting machine fall to disuse
- Sustainability
  - Rebuild, reuse, renew.
    A sustainable solution for everyone, including our planet
- Increase machine value & appeal for resale
  - Update obsolete items with latest technology and new parts for increased resale market appeal
- Not limited to vintage equipment
  - Rebuild service available for Douglas machines of any age
