

Spec Details for Equipment Vendor Meetings

When you meet with an equipment vendor, have these details on hand. They'll give your vendor an idea as to the sort of accommodations you'll need, as well as a cost and timeline estimation.

☐ What am I running? What products? What formats?

☐ What carton styles do I pack?

☐ Am I a co-packer? Will it be exclusively my products running on this machine? Will there be multiple operators running the machine (e.g. customer operators)?
